Glades Road Construction Reaches An All Time High

Road and bridge construction in the western section of Palm Beach County is at a higher level today than for many years past, according to a survey made this week by County Commissioner Paul Rardin. Several road contracts in the Lake Okeechobee Region have been let within the past six weeks and another is expected within the next few days, Rardin said.

The State Road Department accepted bids in Tallahassee on Tuesday for resurfacing with hot plant mix SR 15 between Belle Glade and Canal Point. Low bidder on this job was Rubin Construction Company of West Palm Beach at \$160,838.

The work will start at the Belle Glade bridge and continue north through Pahokee to Conners Highway in Canal Point—a distance of 13.8 miles.

Cleary Brothers Construction Company of West Palm Beach is putting the finishing touches to the new Canal Point bridge on US 441 and the approaches are expected to be completed within the next thirty days. The same concern recently completed a new concrete structure over a drainage canal at Sandcut four miles north of Canal Point. Work by the Cleary concern is progressing on the new bridge at Six Mile Bend just east of Belle Glade.

Contractors are busy surfacing the new highway between SR 80 and the Bacom Point airport four miles south of Pahokee. This is SR 717 and this week contractors have nearly half of the prime coat down on the 8.6 mile project. They are looking to an early completion date of this new highway.

The contract for resurfacing SR 27 between South Bay and the Dade County line—53 miles—is well underway. Asphalt, Paving Company of Miami is doing the work and the leveling (first) coat is nearly in place. The finish coat will follow the first for a completed job.

Handley Construction Company started work Monday morning on a five mile rebuilding contract on Conners Highway from Canal Point east. The road will be widened two feet on the south side and new rock added to the entire base before a coat of hot plant mix is put on for the finish. This contract calls for an expenditure of \$89,000.00.

A county road contract for resurfacing with hot plant mix another mile of road in the Belle Glade area was let last week to Rubin Construction Company of West Palm Beach. The road leads from the airport west to new SR 717 in Chosen and the county expenditures will be in the neighborhood of \$10,000.00.

The same contracting concern last week completed resurfacing Barfield Highway in Pahokee a distance of one mile at a cost of \$10,000.00.

Commissioner Rardin pointed out that a few weeks ago R. H. Wright and Son of Ft. Lauderdale completed the last two mile section of the 6.3 miles Vinegar Bend-Bolles Canal Road, bringing the complete expenditure up to \$201,000 for the completed 6.3 miles loop which serves hundreds of thousands of acres of rich mucklands. This secondary farm road was built out of the seventh cent of the gas tax and at the direction of Commissioner Rardin.

Everglades Fair Open For 10 Days

The Everglades Fair at Belle Glade opened yesterday for a ten day run. More than 1,700 square feet of housed exhibits will be on display and approximately the same amount in outside exhibits, featuring farm equipment in use in this area. The units have been designed and built, through necessity, for exclusive use in the Glades. The display will emphasize to the public the enormous concentration of machinery necessary in this small area to harvest a \$25,000,000 annual crop. Nathan Mayo Day Tuesday will feature the machinery and equipment used in the Glades.

Twenty-one different varieties of vegetables grown in the Glades will be the feature attraction on display in iced and refrigerated cases. Attractively arranged in the 40-foot display will be corn, beans, chichory, escarole, endive, cabbage, Chinese cabbage, peppers, lettuce, radishes, potatoes, celery, field peas, English peas, eggplant, cauliflower, tomatoes, okra, turnips, collard and onions.

Banquet Planned By Future Farmers

The Pahokee Chapter, Future Farmers of America at a meeting Tuesday night discussed plans to sponsor a mothers and sons banquet. The group set Wednesday evening, April 14, as the date for the banquet, with barbecued chicken to be featured on the menu. The fryers for the banquet are being raised by the FFA boys as a chapter project.

It was reported that the chapter is now engaged in the building of two new tables in the FFA workshop, one for the city park and the other for the Pahokee School.

It was voted to organize a Pahokee FFA softball team to play other teams within the FFA district, the first game to be played with (continued on page 8)

He managed to stop at the side of the road and Mrs. Root drove the car back to Pahokee where he was admitted to the hospital for treatment.

In addition to his wife, Violet, he is survived by a son, a daughter, two brothers and a sister, all residents of Michigan.

A light Aeronica plane, owned by Terry Roman of Belle Glade and piloted by Robert John Barrigar of Fort Lauderdale, crashed Sunday at 5 p. m. while buzzing Al Kirkman's corn field a quarter of a mile south of the Belle Glade golf course to scare birds from the maturing sweet corn. Barrigar, critically injured, was taken to the Belle Glade Memorial Hospital where he died at 6 p. m. Monday evening. The body was sent to Stamford, Conn., for services and burial by the Wetherington Funeral Home.

Jet Morgan of Belle Glade, a passenger in the plane, escaped the crash uninjured.

Council Plans To Rezone In Pahokee

The Pahokee City Council at a special meeting Monday instructed City Attorney Ralph O. Johnson to draw up a new ordinance amending certain sections of the present fire zone ordinance.

The area covered in the revised fire zone laws will be on the west side of Rardin Avenue from Second Street on the north to Fifth Street on the south. The amended ordinance, to be passed at the regular meeting of the council April 12, will permit frame construction covered with asbestos shingles for non-commercial buildings, but there will be no change in the present specifications for concrete in the construction of commercial buildings.

The Council is making the change in the ordinance to pave the way to lower-cost housing and encourage Negro residents to build their own homes.

It was announced the Council will again convene in special session Friday night, April 2, when it will meet with the City planning Board and the Zoning Board of Appeals to review and study the city's zoning and fire ordinances and building codes and discuss any proposed changes that might prove advantageous to the city and its residents.

Franchise To FPL Wins By Big Vote

The city of Miami and the Florida Power and Light Co., today prepared to seal a 30-year bargain following voter approval of a franchise agreement to buy electric power from the utility firm.

The vote yesterday saw 17,628 approve the franchise and 2,874 vote against it. The total vote of 20,750 was much higher than anticipated.

The 30-year contract will begin this afternoon when FPL officials formally accept the franchise following a vote canvass.

McGregor Smith, president of

FPL, said the big vote would aid the company in attracting investors to help carry out the power company's huge expansion program.

The franchise agreement will give the city a share of FPL's profits. The first payment of some \$800,000 will be made July 1.

The city is not committed to give FPL the exclusive right to supply power for the next 30 years. Should the city wish to seek another source of power it could do so by meeting certain requirements set forth in the franchise agreement.

(From Miami Daily News, March 31, 1954)

Vote On Franchise Is Gratifying

The 6 to 1 vote of confidence which Miami gave to Florida Power & Light Co. yesterday will enable the company to set up a 30-year program of expansion and to finance it at favorable rates of interest. Both the company and the people of Miami are to be congratulated.

The vote demonstrates once more that all elements of this community approve sound private enterprise. Miami shows it is a city with a wholesome climate for business. We are now assured of the facilities for industrial expansion of the nation's fastest growing area.

For the first time, the city in effect, Shares in the income of the

enterprise. It will receive in taxes and participation an amount equal to 6 per cent of the company's revenue from the sale of electricity within the city. It is estimated this will finance a capital improvements program for the city costing \$50,000,000.

The people of Miami deserve credit for turning out in decisive numbers to pass upon this issue. The vote exceeded all expectations. Company officials feel this vote of confidence is a challenge to provide the very best service possible so that the trust shown them may be justified. They have the green light; they're "already running for re-election" in 1984.

Cinematic Chatter

By Malcolm Millar

Hello everybody! Movie talent scouts may search from Tahiti to Timbuctu for potential screen stars, but Hollywood's own backyard continue to lead the world in the production of film satellites. Glenn Ford is one of movietown's prize examples. Ford was born in Santa Monica, Calif., a short bus ride from every studio in town. And, with typical hometown pride, he has conducted research, among the Screen Actor's Guild rosters which list more than fifty well-known actors and actresses who claim Los Angeles or its immediate vicinity as their birthplace. Among them are K. T. Stevens, Joel McCrea, Francis Dee, Esther Williams, Charles Ruggles, Robert Stack, Irene Hervey, Diana Lynn, Wayne Morris, Fay Bainter, Gloria DeHaven, Jackie Coogan, Jackie Coper, Virginia Gray, Lois Andrews, June Knight, Lon McAllister, Onslow Stevens and many others. Two well-known film personalities, Ford reports, trace their antecedents to Hollywood long before the movies or, for that matter, before the State itself. They are Leo Carrillo and Elena Verdugo, direct descendants of early Southern California settlers. The actors study credited Long Beach within easy commuting distance of Hollywood, with Barbara Britton, Spike Jones, Jeanne Crain and Van Heflin. And from Santa Monica, Ford's birthplace, came Shirley Temple, and Gloria Stuart. Within a hundred-mile radius are the hometowns of Lawrence Tibbett (Bakersfield), Gregory Peck (La Jolla) and Roscoe Karns (San Bernardino). I imagine, with some research of our own we could dig up some movie stars born in our state of Florida. See you at the movies—Mal.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,860.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

**If you want to be paid
your interest as current income—
invest in 3% Series H**

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

Christian Science Group Of Canal Point

That the spiritual understanding which enables man to differentiate between the true and the false, is God-bestowed and is unlimited by material heredity and environment—is a leading point to be brought out at Christian Science service Sunday.

Selections from the King James Version of the Bible and correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy comprise the Lesson-Sermon entitled "Unreality."

Scriptural texts to be read include the following from James:

"Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning" (1:17).
 Readings from Science and Health will include the following:
 "Spirit imparts the understanding which uplifts consciousness and leads into all truth . . . (505:16-17).

The Golden Text is from Romans:
 "The night is far spent, the day is at hand; let us therefore cast off the works of darkness, and let us put on the armour of light" (13:12).

CARD OF THANKS

We would like to take this opportunity to thank each and every one who so kindly remembered us during the illness and death of our beloved mother and mother-in-law, Mrs. Barbara Wauters. We are very grateful for the expressions of kindness and sympathy, the many cards and flowers and shall always remember these gracious folks for their thoughtfulness.
 Mr. and Mrs. Ed. Vertommen, Mrs. L. Vertommen.
